

# Biosecurity Services

Your reputation, livelihood and livestock are our priority.

**At Livetec, we have developed a range of scientifically-driven and data-backed biosecurity services.**

All of our solutions are deeply rooted in our vision to help farmers reduce the potential of disease and promote exceptional on-farm performance that ultimately increases sales and improves business reputation.

Our technical services team provide independent guidance to help navigate your business through any uncertainty by implementing effective biosecurity strategies that reduce the risk of disease entering your farm.

## Livetec are specialists in disease mitigation and outbreak prevention

**Robust biosecurity practices are the most effective way to minimise risks and give your business the best chance of survival should an outbreak occur.**

We are specialists in providing biosecurity strategies that allow you to view your farm from an alternative perspective and understand how you can reduce risks to help stop the spread of disease.

**Our industry leading solutions are key to sparking essential and positive change from the inside out, building a foundation of resilience that proactively minimises risk, rather than accepting disease outbreaks as part of the deal.**

**We have been helping to build the future of structural and operational biosecurity since 2010.**

## We protect reputations, livelihoods and livestock.

**Being prepared is an essential aspect of farming, especially where situations may seem out of your control, such as notifiable and non-notifiable disease outbreaks.**

Our biosecurity solutions mean that you can mitigate the risk of an outbreak, minimise the impact to your business and help keep commercial losses to a minimum.

In addition to handling regulations and compliance on your behalf, our bespoke biosecurity services provide wrap-around support and leadership, allowing you to act swiftly and confidently in any situation.

Our tailored contingency plans also help to protect your businesses' profitability, reputation and livestock, ensuring your business is prepared should the worst happen.

If you are concerned about the consequences of a disease outbreak, Livetec's expert team will work with you to develop a solution that keeps you compliant should the worst happen, and get you back to business as usual as quickly as possible.

## Bespoke Biosecurity Services

**Livetec offers expert on-site operational biosecurity advice for your business.**

This includes bespoke mapping services, personalised outbreak simulations and pre-audit checks to ensure your farm meets the necessary assurance scheme standards.

We also specialise in new-build structural biosecurity consultancy for potential development on your premises, alongside professional document writing for cleansing & disinfection SOWs, policies and company declarations.

From the first site-visit, to the follow-up calls and the delivery of our detailed plans, I have been extremely impressed with the expert team at Livetec. Their advice on current regulation and what to do if AI were to hit our farms have been straightforward yet simple to follow, and very effective. Our partnership has been worth every penny."

### Why use Livetec's Biosecurity Services?

- ✓ On-site biosecurity consultation & advice (farm visit)
- ✓ Mapping services
- ✓ Cleaning & disinfection schedule of work writing
- ✓ New-build structural biosecurity consultancy

## 5 Year Contingency Planning Package

**Our decades of biosecurity experience have given us the expertise to deliver a unique five-year contingency planning service.**

Tailored to your farm business, our set of plans provide you with a clear roadmap of what to do should you face an outbreak, minimising delays, downtime and stress to both you and your animals whilst elevating structural and operational biosecurity protocols that help mitigate the risk of disease on farm.

Our plans are aligned with both the APHA disease outbreak measures and Defra disease protocols to keep you compliant at all times.

**On average our contingency planning package helps farm businesses to get back to full-scale operations within 3 months\***

**Biosecurity plan**

**Cleansing and disinfection plan**

**Risk assessment**

**Infected premises response plan**

**National outbreak plan**

\*Rather than 12 months

## Biosecurity Services for Insurance Purposes

**Your dedicated Livetec client manager will conduct a telephone consultation to establish whether a desk-based risk assessment is required.**

This discussion will be informative and explorative to give us a full understanding of your current biosecurity measures and protocols.

Should an on-site risk assessment be required, our experts will use the findings from our visit to provide you with a detailed report, outlining any current biosecurity threats and highlighting any structural or operational biosecurity vulnerabilities.

Additionally, we build bespoke biosecurity maps to outline control points, ancillary, and the rest of the farm area.

**Standalone risk assessment; visit & documentation**

**Desk-based risk assessment; telephone consultation**

**If you had the choice between paying a premium or paying for Livetec's planning service, take the planning service. Prevention is better than cure."**

## Enterprise Level Biosecurity Solutions

**For more than a decade, we have collaborated with farming SMEs, large integrators and industry to help them overcome a diverse range of challenges, from biosecurity solutions for small backyard flocks to large-scale commercial farming enterprises.**

We have also partnered with leading academic institutions as well as governing bodies like APHA, Defra, BPC and the NFU and corporations to further scientific research into higher animal welfare and biosecurity that enables us to deliver enterprise level biosecurity solutions, tailored to any scale.

**Some of the renowned organisations we work with include:**

Livetec is the leading provider of livestock protection - the go-to partner for all biosecurity issues across the industry.

We provide an extensive range of innovative solutions for our clients:

## About Livetec Systems

We are continually exploring new ways to improve the future of farming. We want to give farmers the peace of mind that they're doing everything they can to protect their animals and efficiently operate their business in the very best way.

Our clients trust us to protect their reputation, livestock and livelihoods by working in compliance with US, UK and EU legislation. We act as a partner to help make the necessary changes to facilitate a strong, resilient farming strategy.

**The British Poultry Council has worked with Livetec for six years and highly values their rapid and reliable service. Livetec provides our member businesses and their farmers with the most efficient service during the worst of times. Industry, Government and Livetec all work together to mitigate the risk of disaster and keep the food supply chain going"**
